**LOWER COURT** 

One Assessment Improperly Levied Contends Supreme Tribunal-Waiahole

Declaring that the water rights eld by the Hul of Kahana had no held by the Hui of Kahana had no assessable value on January 1, 1913, and that the water rights of the Walahole Water Company had a value of \$250,000 on the same date, the supreme court yesterday handed down decisions in these two important cases, carried up from the tax appeal court. In both instances the lower court's ruling is sustained.

By the first of these the territory loses claim to a \$400,000 assessment, as that was the amount set up against the water rights of the Hui of Kahana by the assessor. In the second, the territory gains an assessment against \$249,000, as the company had originally returned the property at \$1000.

roperty at \$1000.

Because the assessment was operly levied, the supreme c holds against the territory in the Hull of Kahana case. Had it been applied against the individual holdings of each member of the hui the result might have been entirely different. The court makes this fairly clear in its syllabus, which says:

"An assessment of taxes to the Hui

"An assessment of taxes to the fruit of Kahapa is not authorized by statute. In cases of Hawaifan land huis the assessments should be to the individual members upon their respective undivided interests as tenants in common in the lands of the huis."

The Waishole Water Company claimed exemption from taxation un-ner Act 136 of the laws of 1907, which der Act 136 of the laws of 1907, which provided such exemption for concerns engaged in supplying water to the general public for irrigation, agricultural or domestic purposes.

On this point, the supreme court says, in its syllabus:

"Property used in the construction of a water system are tracked."

of a water system created in the main for the purpose of supplying water to a cane-planting corporation and only incidentally for the purpose of selling water to the general public is not under Act 136 of the laws of 1907 exempt from taxation."

Discussing the argument of separate assessment and full cash valuations, the supreme court says: "When by virtue of a conveyance

water rights have been severed in ownership from the lands to which they were appurtenant, the water

value of the property was \$250,000."

liver and bowels.

if your little one's stomach is coated, it is a sure sign the stomath, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally, if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give | a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a

well-playful child again. Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and Under the auspices of the members sure. They also know a little given
